

# ANTHONY J. SALCITO

*Salcito Custom Homes | CEO and President*

In business since 1978, Salcito Custom Homes has provided the highest level of service in design and build, construction management, home concierge services, and interior design on luxury custom home projects throughout Arizona.

What are your specialties in your industry?

AS: We specialize in designing and constructing complicated hillside construction projects throughout North Scottsdale and Paradise Valley, Arizona. Our projects are routinely situated on hillsides with extreme topography and limited access. Our clients trust us to select the team and work in their best interest, as they are generally away throughout the process. We are essentially the owner's representative and project manager, guiding the entire process. Our office and field team work rigorously on our clients' behalf. We pride ourselves on regularly providing reliable, honest communication and expectations.

What is your favorite part of your job?

AS: I have always had an affinity for design and construction, so I enjoy everything we do.

What differentiates your business strategy in the industry?

AS: We direct the build from start to finish. Additionally, we have an entire team dedicated to home concierge. We stay on board to care for anything and everything, regardless of how small the request may seem. For our out-of-state residents, we provide ground support and manage the maintenance and care of their homes.

Is there a mentor who has influenced your career?

AS: My father was an extremely hard worker. He instilled in me that clients are always right and that family is the most important thing in life. My wife, Rebecca, is my inspiration, along with my two boys and my two dogs.

What are positive ways you use your power in your community?

AS: I contribute to several miscellaneous charities, most

passionately K2 Adventures and the Arizona Humane Society, of which I was a board member for nine years. I believe you can never do enough, and Rebecca and I are always looking for new ways to give back.

Outside of work, what do you love about living in Scottsdale?

AS: I love living in Silverleaf, Arizona, and I particularly

love living in my house. My wife did such a wonderful job on the interior design. She constantly surprises me with miscellaneous new additions to brighten the space.
